Currently mapping as much as I possibly can in central New Hampshire, places I visit, and keeping track of places I have lived before (northern Utah).

## RamblingRubbisher

Hi! I'm the Rambling Rubbisher, a boring and off-putting web persona that writes reviews about publicly accessible garbage receptacles. I figured that if I'm out in the world collecting data on garbage bins, I might as well stick that data in the Open Street Map. Makes sense. I know I have mapped at least 300 bins, so if anybody knows how I can extract my data from OSM, please drop me a line. Follow me (now with options):

Here. <https://www.patreon.com/ramblingrubbisher> - for the first 500 posts and new unsanitized posts. There. <https://mastodon.online/@ramblingrubbisher> - new unsanitized posts posted in software freedom. Every where. <https://twitter.com/ramblinrubbishr> - links to patreon because this is where everybody is these days. No fair. <https://www.reddit.com/user/ramblingrubbisher> - sanitized posts, fun for the whole family as soon as I get unshadowbanned. Care bear stare. <https://www.pinterest.com/ramblingrubbisher/> - santized posts because I don't know what pinterest is or how people use it.

---

## someart13

Hi! I work on improving OpenStreetMap data by fixing errors and adding data for Mapbox. Please feel free to put any questions! Also you can read more about our team.
